NYAA Health Services Year of Incorporation: 2021 State of Incorporation: Michigan Corporation Type: LLC D-U-N-S Number: 118385409 CAGE Code: 973A5 UEI SAM: XUTUXR3DERL3	NYAA Health Services 3003 East Michigan Ave. #1015 Lansing, MI 48912 Phone/Fax: 800.614.9571 Email: mail@nyaahealth.org

About us: Nyaa is a Great Lakes-situated and nationally engaged scientific research services firm. We aim to work with you to promote health and advance the well-being of all people. We inform and improve the conditions for organizations and communities to mitigate disparities and inequities. Our vision is to provide trusted and outcome-oriented services to achieve equity and justice for all. Our core values include **quality, adaptation, and innovation**. We are content and process guides with deep experience solving problems across sectors. Nyaa helps those in public, environmental health, and related fields *1) develop, manage, and implement programs, 2) conduct research and evaluation, and 3) build capacity through workshops, technical assistance, facilitation, and consultations.*

Our team is our strength. We bring together a diverse group of professionals, each with a unique background, experience, thought, and discipline. Our team includes 1) experienced leadership, 2) research, evaluation, and data scientists, 3) health, environment, and education subject matter practitioners, 4) trainers, facilitators, and specialists. We have completed considerable research-oriented and facilitation work regionally and nationally.

Current Project roster: USDA (food insecurity and nutrition studies); USEPA (systematic review of seafood consumption, toxic chemicals assessment support); MDDHS (statewide assessment of nutrition and physical activity programs); community support programs (substance use programming equity assessment); Michigan Fitness Foundation (equitable grantmaking, statistical analysis of evaluation outcomes; collaborative workgroups)

What makes us different: Our services promote culturally defined values, knowledge, and beliefs of the communities, population, and organizations served and the context in which they occur. We employ **evidence-based, data-driven, process-rigorous approaches** and a context-based understanding of **community, demographics, geography, and social determinants**, addressing the **root causes of disparities, inequities, and injustice**. We look forward to the opportunity to work with you. Please do not hesitate to contact me with any questions.
